Some great **summer reading ideas** – just for a start,

- ✓ Spiritual Teachings of the Avatar – straight forward text – easy to understand and written by a Vancouver author!
- ✓ The Prosperity Plan by Laura Fortgang – another good one by Ms. Fortgang – more details on the “how to” of manifesting! We can use all the help we can get!
- ✓ Breathe!! Your Life Depends on It – user friendly – good self counsel of great information
- ✓ The Art of Comforting by Val Walker – the subtitle is What to Say and Do for People in Distress – a necessary addition to all of our libraries. We all experience loss in our lives and don't know what to do in the moment.
- ✓ Ascension by Susan Shumsky – a book to have on hand for frequent reference
- ✓ Magical Housekeeping by Tess Whitehurst – this book is a little of many things – Feng Shui, Wicca, yoga, affirmations, and so much more – it's just plain fun!

Sometimes there are popular books that folk believe are no longer available – we've become very clever at locating those hard to find books and can get them – for example Tim Powers [Stress of Her Regard](#), [Broken Boys](#), [Mending Men](#) by Stephen Grubman Black, or Alice Miller's [Banished Knowledge](#) or [Drama of the Gifted Child](#).

There's a new link on the website (near the bottom of the page) with an excerpt from a recent book that caught Maggy's attention. We'll be featuring staff recommended reads on this link, so keep checking.

Maggy, Diane, Fiona and Radar look forward to seeing you soon!
